

CELEBRATING TOGETHERNESS GREEN ONAM, SMART ONAM 2025 WATTSUN FAMILY AT LAKE PALACE HOTEL

A Colorful Beginning

The Wattsun Family celebrated Green Onam, Smart Onam 2025 with joy, cultural pride, and the spirit of sustainability at the beautiful Lake Palace Hotel, Kadinamkulam. The serene lakeside venue added charm to the festive mood, making the day even more memorable.

The celebration began with warm greetings, a lively photoshoot, and a soulful prayer by Ms. Jomini and Ms. Jerlin. A heartfelt welcome speech by Ms. Sandra set the tone, followed by the inspiring inaugural address from our Founder & CEO, Mr. Terance Alex, who spoke about the timeless values of Onam and Wattsun's vision of a greener tomorrow.

The cultural performances reflected the true colors of Kerala. The Thiruvathira by the Thiruvananthapuram team, melodious Onam songs by the Kottayam and Kollam teams, and the delightful kids' performances filled the hall with energy, joy, and tradition.

Special Onam messages from Mr. Das Antony and Dr. Arun Surendran enriched the event with inspiration, encouraging everyone to uphold tradition while embracing innovation.

A Feast of Unity

The highlight of the afternoon was the grand Onam Sadhya, served on traditional banana leaves at the Lake Palace banquet hall. With its authentic flavors and rich variety, it brought the Wattsun Family together in joy and gratitude.

Post-lunch, the festivities moved outdoors, where the venue's open spaces set the stage for fun-filled games, team activities, and the thrilling Tug of War. The laughter, cheers, and team spirit perfectly captured the true essence of Onam.

The event concluded with a heartfelt Vote of Thanks by Mr. Rahul Ravi, appreciating the efforts of all who made the day possible.

The Green Onam, Smart Onam 2025 celebration at Lake Palace Hotel, Kadinamkulam was more than just a festival—it was a reflection of the Wattsun Family's unity, cultural pride, and commitment to a sustainable future.

SHOWCASING THE FUTURE OF CLEAN ENERGY GLOBAL SOLAR EXPO 2025 – COIMBATORE

Green Factory proudly marked its presence at the Global Solar Expo 2025, Coimbatore, over two impactful days. The event served as a dynamic platform to showcase the latest advancements in clean energy and connect with industry leaders, partners, and solar enthusiasts.

Our stall featured a comprehensive range of sustainable solutions including Reliance HJT Panels, Jio Sparq Microinverters, advanced EV Chargers, and Battery Energy Storage Systems. These innovations reflect our commitment to enabling reliable, efficient, and eco-friendly energy choices for a greener tomorrow.

Visitors engaged in meaningful discussions with our team, gaining insights into how Green Factory is driving progress in renewable energy distribution. Adding to the significance of the event, our Founder & CEO, Mr. Terance Alex, addressed the audience and shared his vision for accelerating India's clean energy transition, further reinforcing Green Factory's role as a thought leader in the industry.

The two-day showcase at Coimbatore reaffirmed Green Factory's mission – protecting the planet by powering a sustainable future.

INDIA AMONG TOP SOLAR POWER NATIONS: PM MODI

India has firmly established itself as one of the world's top five solar energy producers, a dramatic climb from where it stood just a decade ago, according to Prime Minister Narendra Modi.

In a push toward energy self-reliance, the government is also expanding its alternative fuels portfolio. A new ethanol plant in

Assam—which uses bamboo as feedstock—highlights this effort, bringing economic opportunities for local farmers and tribal communities.

To support this, the state plans annual investments of about ₹200 crore for bamboo cultivation and procurement, which is expected to generate thousands of jobs.

Beyond energy, Assam is becoming central to broader industrial goals: a semiconductor manufacturing plant worth ₹27,000 crore is under construction in Morigaon, reinforcing the region's role in India's march toward Aatmanirbhar Bharat (self-sufficient India).

LATEST COMPLETED PROJECTS - UNDER PM SURYA GHAR

3 kWp On-Grid Solar Power Plant
Mr. Venkat moorthy, West fort, Thiruvananthapuram

3 kWp On-Grid Solar Power Plant
Mr. Mohanan, Kottathala, Kollam

6 kWp On-Grid Solar Power Plant
Mr. Ashraf, Oachira, Kollam

3 kWp On-Grid Solar Power Plant
Mr. Junuraj, Paravoor, Kollam
